MILAN, 14 - 15 DECEMBER 2017
LINATE CENTER
MILANO LINATE AIRPORT - ENRICO FORLANINI

OBJECTIVES AND CONTENTS

The objective of the future is to maintain a high and uniform level of safety in civil aviation in Europe and to improve overall airport safety levels.

EU Regulation No.139 / 2014 sets out the technical requirements and safety procedures at airports in accordance with the essential requirements set by the Regulation (EC) No.216 / 2008 of the European Parliament.

Safety is a global issue; starting from the airport experience it is a must to focus on the evolution also in the other transport sectors.

The conference will analyze the state of the art in the aviation context and the general positive contamination in other fields.

Further major topics are becoming more and more important: Crisis Management, Enterprise Risk Management (ERM), engineering design, relationship with territory needs. The conference will give the opportunity to exchange point of views with leading international consulting firms, institutional bodies and non-European Countries.

TARGET

The workshop focuses the key roles of airport safety management (Accountable Managers, Safety Managers, Post Holders, Compliance Monitoring Managers, Risk Assessment Specialists,) involves also design managers, maintenance engineers, responsible for the operations area, legal offices. The conference addresses also the key figures for the management of the territories surrounding the airports, the authorities and the institutional bodies. It intends to extend the reflection on the experience of airports at other types of transport: ports and operators of intermodal centers, railways, surface transport and also the universities, the professionals and the consultants interested in applying the standards and evolutions in process.

Mr. Corrado Fantini

Director Functional Safety

12,30 / 13,00

13,00 / 14,15

Thursday December 14 – morning session

Registration of participants

Opening Jobs - Welcome Greetings

The state of the art of the safety at European airports

Aviation Safety Regulation Scenario: the Fundamental Tool to Control Risk Portfolio, Supporting Airport Businesses Sustainable Growth'

The airlines point of view

CDM : Collaborative Decision Making also for better safety

Coffee Break

The mandatory occurrence reporting to the Authority

Air Safety and trends

Questions&Answers

Light Lunch

Agenda

Thursday December 14 – afternoon session

14,30 / 15,00

EIDOMATICA

Mr. Fabio Alboraletti

CEO

Presentation of the 2017 European survey on safety airport

15,00 / 15,30

TÜV ITALIA

Mr. Francesco Scarlata

Sales Manager

ISO Standards based on HLS (High Level Structure) as a support for strategic planning

15,30 / 16,00

BDS

Mr. Renzo Gentile

CEO

Increasing security rules: a new impact on passenger's experience

16,00 / 16,15

Coffee Break

16,15 / 17,30

PANEL DISCUSSION

The evolution of transport : Scenarios and Experiences

- **RUSSIA** – Chamber of Commerce Italy Russia
Market evolution and airports in Russia
- **ISRAEL**
Safety and security in strategic infrastructures
- **DEERNS**
Infrastructure design and safety/security aspects scenario and trends
- **CNR**
Institute of Studies on Mediterranean Societies National Research Council of Italy
Integrated and seamless trans-national transport security
- **ICAO** (call conference from Montreal)

17,30 / 18,00

Questions&Answers

Agenda

Friday December 15 – morning session
